PRESIDENT'S REPORT FOR MARCH 2020

Welcome to the beginning of another year, with more speakers, more information, more cultural days, more interest, and more enjoyment.

Firstly, I would like to thank the 2019 OCSA Committee for their perseverance and their support during the last 12 months. Any organisation does not operate effortlessly by the efforts of the committee alone. OCSA is proud to have so many volunteers who contribute to the overall orchid experience. And to these members who contribute in a larger or smaller capacity, thank you on behalf of the Orchid Club of South Australia.

Secondly, I would like to thank the members who volunteered for the 2020 Committee. The committee is not completely filled and if you would like to participate on the committee or in other areas of the club, please contact one of the committee members. There is always plenty of opportunities, to extend your orchid experience. Members are welcome to attend committee meetings to see whether this activity would interest them. If you would like to attend, please contact one of the OCSA Committee.

Maybe you would like to learn more about orchid judging, or orchid competitions, orchid culture, the many types of orchids, attend shows and conferences, meet new people or just enjoy a day or evening of relaxation, there are plenty of opportunities to join in and participate.

2020, has only just begun and Australia has already experienced a range of climate changes designed to challenge the most positive people.

(Dorothea Mackellar wrote a poem in 1908 while she was in England and beginning to feel homesick, she was only 19 years old. The most famous passages are as follows, "*I love a sunburnt country, a land of sweeping plains, of ragged mountain ranges, of droughts and flooding rains*" "*her beauty and her terror, the wide brown land for me*") Many Australians have experienced droughts, fire and floods this year and lost everything and every memory. And many orchids growers in these areas have lost some or all their precious orchid memories (plants). For many others, extreme climate changes, a bit like having four seasons in one month, has created challenges.

To all these Australians, our heart, our sadness and our sympathy goes out to each and every one. And we hope and pray, that each day as Australia recovers, that every person involved can look forward to a brighter future.

Best regards,

Des Bettcher – President

BEGINNER'S GROUP

Don't forget the Beginners Group at the March 2020 Monthly Meeting from 7:15pm to 7:45pm. There will be expert club growers to help new and older members in the art of growing and cultivating orchids so come along early to increase your knowledge.

---ooo000ooo---

WELCOME NEW MEMBERS

The president and committee, on behalf of the members, welcome the following new members to the club. We trust that your time with us is beneficial and rewarding to you in your hobby. Your State Show Number and Division Id are printed in **BOLD** details below.

<u>NAME</u>	<u>NUMBER</u>	<u>DIVISION</u>
Phillip & Anne Steer	514	1st
Fred Pedler	475	2nd
Ron Martin	37	2nd
Carol & Alan Jabs	38	2nd
Graham Lambert	39	2nd

PINE BARK AVAILABILITY

To all members, especially the new members, the club has for sale four different sizes of pine bark for potting or repotting your orchids. The available sizes are:

- 5-8mm – generally used for small seedlings.
- 10mm – generally used for fine rooted orchids in smaller pots.
- 15mm – mainly used for most mature Cymbidiums and other larger sized orchid genera
- 20mm – generally used for large Cattleya varieties with thick root structure.

All you need to do is contact Wendy (Lodge) on 8264 5874 to arrange a collection time and date. Wendy's address is 4 Narelle Court, Hope Valley.

---ooo000ooo---

SUBSCRIPTIONS FOR 2020 ARE NOW OVERDUE

For those members who have not already paid, your membership fees for 2020, they are now **OVERDUE**; costs are as follows:

For members who wish to continue receiving the Bulletin by post the fees remain at:
Single: \$35:00 Joint/Family: \$40:00

For members who wish to continue receiving the Bulletin by email or those members who want to change to receiving the Bulletin by email, the fees will be:

Single: \$25:00 Joint/Family: \$30:00

Members who wish to change from receiving the magazine by post to receiving it by email, I will need your email address.

Payment may be made at the Treasurer's Desk at the next Monthly Meeting or to the Assistant Treasurer at the Day Group meeting.

You may also pay by post to:
Orchid Club of South Australia
GPO Box 730
ADELAIDE, SA 5001

Alternatively, they can be paid by Direct Debit to:

Orchid Club of South Aust.
BSB No: 105 152
Account No: 032766440

BE SURE to put in the "Comments" field your name and 2020 subs.

The Treasurer will also accept membership renewals by Credit Card.

Thanking you, *Graham Hein* – Treasurer

FEBRUARY 2019 DAY GROUP REPORT

I welcomed a lovely group to our day meeting and wished them a Happy Valentine's Day.

I had a number of apologies to give out including Eric, Yvonne, Bernice, Pat, Barbara and Rayne. I hope to see you all at our March meeting.

Our Guest speaker was Coralie Hime and she gave us a wonderful talk on how to clean up our plants and get them ready for competition and display. It is amazing how little tips can make all the difference in showing your plants and I hope to see more plants on our display table and competitions as we move through the year.

I asked Wendy to come out and talk about the plants on the appreciation table. This time of the year there are not so many flowering, but the few that were on the table were top quality plants. The favourite plant that was picked by the members went to Judy King which was a small Cattleya. Congratulations Judy.

Our next night meeting will be on the 5th March with Des Bettcher talking about staking plants.

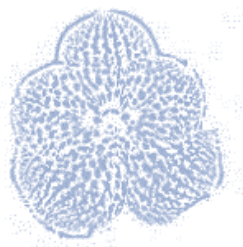

The next day meeting will be on the 13th March and Wendy Lodge will be giving a talk on Dendrobiums.

I closed the meeting with the members enjoying a chat and afternoon tea.

Thank you to all my helpers. Without you I would not be able to run this meeting.

Hilary Leisavnieks - *Day Group Co-ordinator*

---ooo000ooo---

VALE UNA SEIDEL

It is with sadness that we advise members of the passing of former member Una Seidel who died on 30th December 2019 aged 91 years. Together with her husband Cyril and son John, Una was a stalwart supporter of our Club during the “John Martins” days and the early “Royal Show” years.

After Cyril’s untimely death she continued her membership and supported her son John who is one of our current auditors. John was also a raffle ticket seller and photographer of the Club.

We offer our condolences to her sons and their families.

VALE SHIRLEY MONKHOUSE

Shirley Monkhouse, passed away recently, aged 90 years old. Wife of Syd Monkhouse and mother of Stephen, Shirley joined OCSA in 1960 and after many years of service to OCSA and the wider orchid industry was made a life member in 1975. Life Member does not really explain her commitment and her love for orchids.

Shirley started growing orchids with her husband Syd at their home in Camden Park. The orchids consumed more property and time, so eventually they moved to a larger commercial size property at O’Halloran Hill. Together they developed Adelaide Orchids, an orchid company known worldwide. Not only have Syd and Shirley contributed much to OCSA but also to the wider orchid community. And for that the orchid community will be always thankful.

A well know orchid identity, Shirley will be missed by her family and the orchid community.

---ooo000ooo---

VALE – Peter Hills

Life Member (2007), Orchid Club of SA,

Peter passed away on 23 January 2020, just 10 days short of his 92nd birthday.

Orchids played an important part in Peter’s, and his family’s life, having first started growing orchids in the 1960s when he joined the Orchid Club of SA. He regularly attended club meetings for over 50 years and in the last 30 years took to exhibiting at shows as well.

He grew orchids for the pure love and enjoyment of the hobby and to share with family and friends. Coralie, his daughter has also been very active in the club and the Australian

Orchid Council, both with her dad's encouragement, full support and help.

In 1978, Peter and his family attended the 8th World Orchid Conference in Bangkok as well as the regular Australia Orchid Conferences. After Peter's wife passed away in 2004, he and Coralie attended most Australian Orchid Council Conferences and every World Orchid Conference, with his last being the 2017 Ecuador Conference (amazing at the age of 89). He celebrated his 80th birthday at the Houston Space Centre, touring after the Miami World Orchid Conference. He made many friends at these conferences and really enjoyed sitting and chatting with them when they caught up at subsequent events.

While never a high-profile orchid grower or public speaker, he freely shared of his cymbidium orchid knowledge to anyone who asked. For many years he organised OCSA raffle tickets for sale at meetings, as well as hand sorting the hundreds of batches of plastic bags & labels for plant divisions sold at the Royal Adelaide Show and transporting daily deliveries plants into the showgrounds. He also organised some OCSA bus trips to interstate conferences.

A kind and true gentleman, Peter is sadly missed by his immediate and extended family, as well as by the many people he met through his love of orchids.

*John Harris FAOC
Life Member OCSA
(Peter's son-in-law)*

---ooo000ooo---

VALE
REG SHOOTER
1932 – 2020

It is with much sadness that we
acknowledge the passing of
Reg Shooter.

Reg passed away peacefully surrounded by his loving family at the Kapunda Hospital on Tuesday 4th February. Reg was privately cremated and a private wake was held on Sunday 9th February in his honour to celebrate his life and the memories of this wonderful man.

Reg & Gill became members of OCSA in 1976. He was granted Life Membership in 1994. Reg helped out doing many things for the club especially serving as Show Marshall for many, many years.

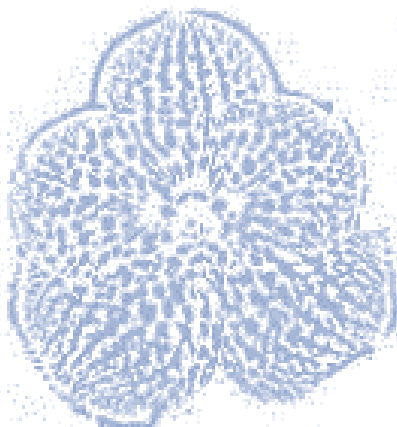

Reg was an accredited judge and he & Gill visited many places in the world attending Orchid Shows. One special event that Reg was very proud of was when he was invited to be Guest Speaker at the Fourth Asian Pacific Orchid Conference, Chaing Mai, Thailand back in January 1992 and has admired

the presentation tray he received from that event.

Many times, Reg together with us were invited to judge many of the Cairns and Townsville Orchid Shows and after the Shows Gill would join us and we would spend a week or so touring the area and visit many wonderful Orchid Nurseries.

Reg was a wonderful family man and a very happy go lucky man who always had us in fits of laughter. Reg will be very sadly missed by us all. Rest in Peace our dear friend.

Pat & David Harmer

FESTIVAL OF FLOWERS & AUTUMN SHOW

*The Festival of Flowers & OCSA Autumn show will be held at
St Paul's College, 792 Grand Junction Road Gilles Plains
on Saturday 25th & Sunday 26th April 2020*

Put In: On Friday 24th of April between 4.00pm & 6.00pm.

Entry will be available via **Blacks Road Gate No 4** into the college quadrangle for unloading on Friday 24th and for loading after 4:00pm on Sunday 26th. **All** vehicles must then be removed to the designated college car parks.

No vehicles are permitted to be parked within the college grounds.

Judging will begin at 6:00pm on Friday 24th.

Parking: Parking will be available in the college car park during the show on Saturday 25th & Sunday 26th April 2020.

Parking is not permitted in the College grounds other than the general car parks.

Parking is **NOT** permitted in the general school quadrangle except for loading and unloading.

Blacks Road gate No 4 is then strictly for emergency use only.

Foliage Plants: These can be brought in with your orchids, make sure that your exhibitor's number is on all pots. Please bring in as many as you can.

Plants and Labelling: Your plants should be presented ready for exhibition. Please ensure that the correct label for your Division is attached to each plant, displaying the plant name and your exhibitor number on the label.

Take Out: Take out will occur after 4:00pm on Sunday 26th April 2020.

Exhibits must not be removed from the show before this time without the approval of the Show Marshall. All plants must be removed; if a member is unable to remove their plants and wishes to have another person pick them up please notify the Show Marshall before take-out.

Show schedules: These will be available for members at the March and April club meetings.

Show helpers: If you can assist with the running of the show, on the BBQ, Plant sales stall or help out in the kitchen your help will be very much appreciated. Please contact the Show Marshall if you are able to assist.

Trading Table: Bring your plants through the side entrance of the hall after 4:00pm on Friday 24th of April and check them in with the trading table helpers.

Ensure all labels and dockets are fully and correctly filled in, otherwise plants may not be accepted for sale. Present your sale plants in the condition you would expect them to be in if you were purchasing the plant.

NOTE: The club has purchased new style labels that are to be used for sale plants;

NO OTHER plant label type will be accepted. Labels will be available for purchase from the Trading Table at 5¢ per label.

Growers please note: - Plants suspected of being infected with virus, disease or insect infestation will not be eligible for competition and such plants will be asked to be removed from the show.

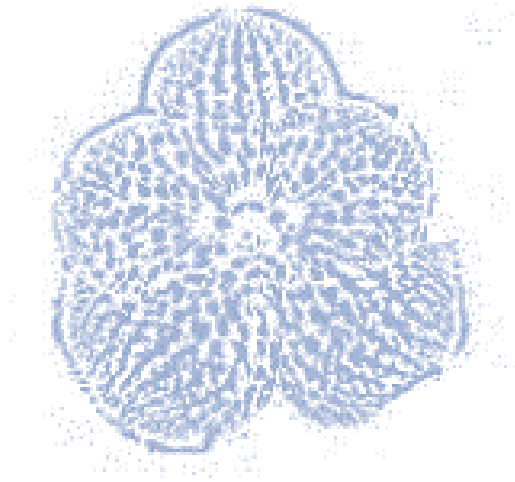

AOC Award: If you have a plant you wish to be judged for an AOC award then this can be arranged by phoning Wendy Lodge on Ph. 8264 5874 at least **48 hours before** the commencement of show.

An admission fee of \$3.00 will be charged for entry.

PLEASE NOTE due to Anzac Day on the Saturday the 25th April 2020 entry doors will be open from 12 noon until 4:00pm; Sunday 26th April 2020 entry doors will be open from 10am until 4:00pm.

Light refreshments will be available for the duration of the show.

---ooo000ooo---

FROM THE REGISTRAR FOR FEBRUARY 2020

Plant of Open Division and Registrar's Choice

Judge John Lampard told the members that the Panel chose *Paphiopedilum* Mount Toro 'Arabella' as plant of the Division. This plant has been grown by Graeme and Maureen Hazledine. It is a primary hybrid between species *Paph. (stonei x philippinense)* and is what is called a multi floral Paphiopedilum. Both parents have the long petals with the twisting inherited from *Paph. philippinense*. This plant is exceptionally well grown and demonstrates what Judges look for when they talk about "Show Condition". The flowers are very well displayed, and the leaves are almost blemish free. This orchid has been awarded an AM with the Australian Orchid Council and this is a piece of the actual awarded plant. This is not a beginner's plant to grow. It needs good light and humidity and likes to be grown in a temperature range from 10°C to about 30°C and the flowers will last for between 6-10 weeks on the plant. Well Done.

Maureen explains how they grow this fabulous plant. The plant grows in a glasshouse, heated in the Winter on a thermostat control temperature between 10°C and 30°C, in the summer Air Con keeps the temperature between 28°C and 30°C, and it may drop down below 28°C if the nights are a bit cooler. There are misters under the benches and bark on the floor. They water in Summertime every 3 days with rainwater and in Wintertime every 5-7 days, depending on the weather. They fertilize every 3rd watering with Blossom Booster or Strike Back, or Hi Nitrogen (Orchid Fert.) They use small to medium bark depending on the pot size. Maureen also adds a little bit of marble chips.

Plant of First Division

Judge Les Nesbit spoke about the plant of the Division being *Prosthechea* Green Hornet, belonging to Hoa Nguyen and Dat Van Tran. This is a well grown plant of the primary hybrid of *Psh. (cochleata x trulla)* made in 1995 by H. & R. Nursery in Hawaii. The plant presented with 4 very fresh inflorescences, displaying 7-8 flowers of the 'cockle shell' shape on each. The contrasting lip is uppermost on the flower – referred to as non-resupinate. It is growing in a mix of medium bark and marble chips. Congratulations.

Hoa writes to tell us that they grow this plant in intermediate conditions, watering every second day during summer, and once a week in the winter time. They use Peters Excel and Special K as fertilizers, and Hoa comments that it is easy to grow.

Plant of Second Division

Judge Steve Howard talked about a plant of *Dendrobium* Limestone which was chosen to be plant of the Division which belongs to Colleen Peters. It is another primary hybrid plant, the parents being *Den. (bowmannii x cucumerinum)* that was registered in 1985. Both parents had the narrow rat-tailed leaves and flowers that present upside down (non-resupinate) with the labellum

upper most. This hybrid likes to grow in dappled light, with cool to warm conditions and prefers 50%-60% humidity. Keep it moist in the Spring/Summer when in active growth. Grow it in a pot with free draining medium or on a slab of tree fern. Remember to reduce watering during the cooler months and only use ¼ strength fertilizer.

Colleen gave us a short version of how she grows her *Dendrobium*. It hangs in her shade house under 70% shade cloth, gets watered daily in summer and weekly in winter. She uses Maxicrop as fertilizer for all her orchids and it was growing in a mix of small bark and perlite.

Plant of Orchids in Schools Division

Judge Ron Yates told the meeting that *Stenoglottis macgloughlanii* was the plant chosen for Schools Division. It was a small specimen plant with 7 racemes of small white flowers with a pink flush, set above a pot full of clean green leaves. This *Stenoglottis* is a summer grower, dormant in winter, and then reshoots in spring from a cluster of fleshy roots. It is grown by the students at Kildare College, and it originally comes from South Africa. There are 4 different species that are grown in South Australia, the most common being *Stenoglottis longifolia*, which flowers in Autumn. It can be grown in a shade house all year round and needs to be repotted in

winter. Well done, Kildare Students.

Kildare College mentor Les Nesbit writes that this terrestrial plant is grown cool, gets watered regularly in summer, getting the same fertilizers as *Cymbidiums* in the summer, and is growing in a sandy soil mix. The leaves die off in early winter, then reshoot in spring.

---ooo000ooo---

Pallets available for collection by any member who would like some. Every time the club gets bark or Neutrog, it is delivered on clean pine pallets. I currently have 9 available. Please call me on 8264 5874 if you would like to have them.

Wendy Lodge, Registrar

- | | |
|--|---------------|
| 2. <i>Onc.</i> Sharry Baby 'Perfumed Princess' | Sharon Farley |
|--|---------------|

Phalaenopsis/Vandaeae - Hybrid Under 80mm

1. *Phal.* Unknown 'Winespot'

Joe Romeo

Other Genera – Species not listed elsewhere

1. *Bifrenaria vitellina*
2. *Coel. tomentosa*

Peter Lukeman
Vanda Rounsefell

OIS DIVISION

Laeliinae – Cluster

1. *Bct.* Hawaiian Treat

Woodville High School

Laeliinae – Non-Standard Shape Hybrid under 100mm

1. *Enc.* Bees Knees

Willunga High School O. C.

Laeliinae - Species

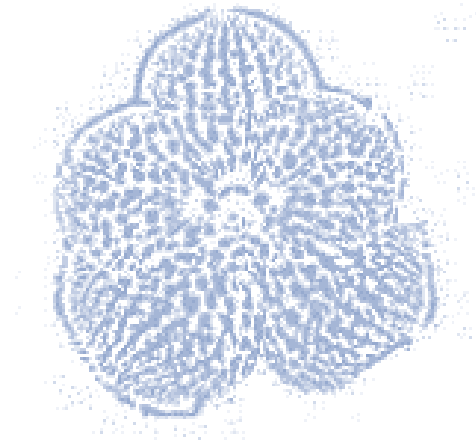

1. *Psh. cochleata*
2. *Psh. cochleata*
3. *Psh. cochleata*

Kildare College
Willunga High School O. C.
Woodville High School

Terrestrial Other Than Australian Native - Species

1. *Sngl. maccloughlinii*

Kildare College

NEUTROG ORDER

Members, the club will be placing another order with Neutrog in March for their fertilizers. This is a great chance to purchase fertilizer at prices too good to be missed. Remember though; this offer is for **MEMBERS**, and **MEMBERS ONLY**, so if family or friends would like products at the incredible prices on offer, they need to become a member of the club to be eligible. Just consider this; the savings made by purchasing just one of the products at the prices on offer could more than pay for the annual membership of the club. However, these incredible prices **MUST NOT** be disclosed or published publicly.

PLEASE NOTE: There are two new products on the current order form; Rooster Booster and Nincompoop. Please **MAKE SURE** you use the current order form when ordering; not any previous order form you may have.

For those members who receive their Bulletin by mail you will find an order form included with your March magazine so, if you wish to place an order use this form. For those who receive their Bulletin via email, you will receive an email message like the one notifying you that the Bulletin is available to be viewed and/or printed. This email will have a link to the Neutrog order form.

If you are intending to order any of the Neutrog products and are unable to attend either the March night or Day Group meetings, you can mail the order form along with your payment to the club's GPO Box number (details are on the bottom of the order form) by close of business on Friday the 13th of March. If paying by Direct Debit (details are also on the bottom of the order form); make sure you enter your name and the words "Neutrog Order" when making this payment. You will also need to post the order form to the club's GPO Post Box or email it to graham.hein@bigpond.com; along with the fact you have paid by Direct Debit so that I can check the bank statement for details.

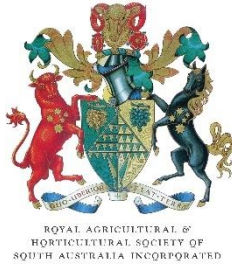

Orders will be available for collection from Wendy Lodge's residence at 4 Narelle Court, Hope Valley on **Saturday the 28th of March**. You are reminded that it is **YOUR RESPONSIBILITY** to arrange your order collection; **NOT** the club's. You need to contact Wendy on 8264 5874 **prior** to collecting your order. You should record Wendy's phone number, address and the collection date before you either hand in or post your order form.

PLEASE NOTE: Just repeating, close-off for orders will be **Friday the 13th of March**. Next order will be in **October**.

Any questions, please call me on 0488 788 700.

Graham Hein - Treasurer
